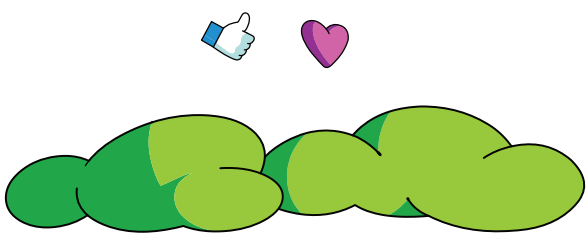
Agreeing rules and boundaries online 14

Managing your family's settings and controls through technology 16

Resources, tools and services to keep kids safe 17

Support for you and your kids 20



Introduction

Hello, we're here to help your kids confidently explore the endless possibilities of the online world – and safely navigate any dangers.

The online world is an amazing place. Our kids can play, learn, create and connect – the possibilities are endless. But there are also risks. That's why we're here to help.

Bringing together the NSPCC's expertise in protecting children and O2's tech know-how, we've put together this guide to reassure you and give practical information and advice. Whether you're an online expert or you're not sure where to start, it'll let you know about everything you need to help keep your kids safe online.

We've got free resources and expert information, dedicated advice from O2 Gurus either in store or over the phone, and our Net Aware website. It's all here to support you, and we're by your side to help you and your little digital explorers have the conversations that will help build their knowledge and make sure they're safely discovering the best of the online world.
